EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with William A. Jividen on March 10, 2006.

The application has been amended as follows:

In the specification replace paragraph (0001) with the following paragraph

(0001) This application is a divisional of currently pending Application Serial No. 10/091,938, filed March 5, 2002, now U.S. Patent 6,730,367, which related to patent application serial no. 09/998073 for Q'A Method to Provide High Flux of Point of Use Activated Reactive Species for Semiconductor Processing," filed on November 30, 2001, now U.S. Patent 7,001,481.

Claims 18 and 19 have been cancelled.

2. The following is an examiner's statement of reasons for allowance: the apparatus as claimed in claim 1, specifically, the dispenser unit adapted to expose the surface of the workpiece to a direct flow of the precursor gas for a surface reactant formation, to provide a flow of the input gas over the workpiece in a direction away from said precursor gas, and to provide the purge gas between the precursor gas and the input gas to prevent mixing of said precursor and input gases, the dispenser unit further having a pair of evacuation ports for evacuating said purge gas was not found in or

suggested by the art. The art in general teaches dispenser units that direct the flow of the precursor and input gases either parallel to each other, like those of Miller et al, US Patent 6,200,389 B1, or convergent with each other, like those of Nishizawa et al, US Patent 6,334,901. No dispenser unit was found that directs the input gas in a direction away from the precursor gas.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jeffrie R. Lund whose telephone number is (571) 272-1437. The examiner can normally be reached on Monday-Thursday (6:30 am-6:00pm).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Parviz Hassanzadeh can be reached on (571) 272-1435. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
